

COVID-19 Special Issue

“Methods to Facilitate SARS-CoV-2 and COVID-19 Research”

Guest Editor: Dr. Keith T. Gagnon
Southern Illinois University School of Medicine

**JBM is now accepting manuscripts for the following
topic areas:**

- Experimental model systems of COVID-19 disease
- Methods to purify and characterize SARS-CoV-2 viral proteins
- Determination and prediction of viral protein and RNA structures, molecular modeling and docking simulations to identify drug candidates
- Nucleic acid therapeutic development against coronavirus
- Bioinformatics approaches such as phylogenetics or phylogeography, and sequencing of SARS-CoV-2 viral genomes and transcriptomes by various platforms

Pre-submission inquiries are welcome:

editors@jbmethods.org or Dr. Gagnon(ktgagnon@siu.edu)

Journal of Biological Method Editors-in-Chief:

Prof. Dominique A. Glauser, PhD
University of Fribourg, Switzerland

Prof. Long-Cheng Li, MD
